The Ideal Washing Machine.
Capitalists were led to extend a manufacturing business in Portland, Mich., in this way. Samples of all the washing machines in the United States were procured and thoroughly tested with "Terri's" Perfect Washer. This machine was found superior to any other, as it washed the clothes cleaner, quicker and with less work. The factory has been running full time during the general depression. These facts speak for themselves. The machine is sold only through agents, and 6,000 are kept in stock to insure prompt shipments. The property of this concern is another example of the success of high merit.

STATE NEWS NOTES.

MICHIGAN ITEMS WHICH WILL BE OF GENERAL INTEREST.

Short Review of the Work of the State Solons at Lansing—Other News of Interest from All Over the Great State Reported by Telegraph.

Lansing, Mich., May 25.—At midnight, yesterday, amid great confusion, the Michigan legislature ceased transacting legislative business after nearly five months' session. Many of the so-called reform measures, fathered chiefly by the political friends of Governor Pingree, were left in committees, together with many bills of a more local character. The final formal adjournment will be on Monday. Last night Governor Pingree sent a final message to both houses, urging the recall of the Merriam bill for increasing the taxation of railroad earnings and the passage of a substitute which shall be more adequate to accomplish the purpose intended.

Accompanying the message was an estimate of the state railroad commission, showing that the increase in taxes under the bill will be but \$155,700. The governor also submitted a brief which tends to show that the act in question is illegal, being "an attempt to usurp the power of congress to regulate and tax commerce among the states and with Canada." The governor urged the passage of an act against which, at least, no legal objections could be raised. The senate refused to take any action on the governor's message. Accordingly both houses adjourned at midnight.

Lansing, Mich., May 31.—The members of the legislature kept up until a late hour their revelry incident to the closing of the business Friday night. During the celebration a valuable portrait of General Lafayette, which hung on the senate walls, was greatly damaged, a couple of books having been thrown against the canvas, tearing it in two places. The elegant glass doors of the senate chamber were broken and the walnut desks were defaced with a carpenter's hammer.

Comedian Comes Near Death.
Mount Clemens, Mich., May 29.—Robert Gaylor, the Irish comedian, was overcome by gas at a bathhouse and was unconscious two hours before he could be moved. In spite of repeated warnings to guests at all the bathhouses not to turn on mineral water unless an attendant is present, many people suffer the penalty every season of trying to gratify their curiosity. Gaylor had taken his bath and then turned the faucet and allowed the clear mineral water to run over his neck and chest, the result being that he almost lost his life.

Had a Fight with a Porcupine.
Niles, Mich., May 29.—Nolan H. Breese and A. M. Perry, residing near this city, had a desperate fight with a porcupine which they finally killed, and they now have the carcass on exhibition. The animal has been annoying farmers hereabouts for over a year and many attempts were made to kill or capture it. Breese and Perry came on the porcupine accidentally and the animal gave them a great fight, inflicting severe wounds on both men. No one knows where the porcupine came from.

Managed to Sever His Windpipe.
Marquette, Mich., May 28.—William Fitzpatrick, a section foreman for the D. S. & A. railroad, living in Au Train, thirty miles east of here, attempted suicide. Fitzpatrick, who was bossing a gang on the track, walked away a short distance and pulled out his pocket knife and slashed himself seven times across the throat, the last time cutting the wind pipe. He failed to kill himself outright, but he is very low and his attempt has every chance of being successful.

Horsewhipped a Minister.
Metamora, Mich., June 2.—Rev. Dr. W. H. Flint was horsewhipped on Main street by Arthur Brownell, who alleges that Dr. Flint made statements reflecting upon his character, resulting in divorce proceedings. Mrs. Brownell died before the matter came to trial. On her deathbed, it is said, Mrs. Brownell accused Dr. Flint of making these statements. Brownell attempted to have Flint contradict them, but the latter denied circulating them and refused to retract.

The way people eat and drink has serious consequences. Very few people know how to treat their stomachs. Eating too much; or not enough; or the wrong kind of food; or at the wrong time—gets the digestive organs into such a thoroughly disordered condition that at last nothing whatever can be digested. When the appetite fails and the liver becomes sluggish, the whole system is dragged down and deadened by imperfect nutrition. There is nothing in the world which restores or keeps tone and vigor so quickly and scientifically as Dr. Pierce's Golden Medical Discovery.
It acts directly upon the nutritive organism; it gives the stomach power to extract a high percentage of nourishment from the food, and enables the liver to filter all bilious poisons out of the circulation. It puts the red, vitalizing life-giving elements into the blood, and builds up solid flesh, muscular force and healthy nerve-power.
In all debilitated conditions and wasting diseases it is vastly superior to malt extracts or any mere temporary stimulants. It gives permanent strength. It is better than nauseous emulsions, because it is agreeable to the weakest stomachs.
Whenever constipation is one of the complicating causes of disease, the most perfect remedy is Dr. Pierce's Pleasant Pellets, which are always effective, yet absolutely mild and harmless. There never was any remedy invented which can take their place.
"In August, 1895, I was taken down with what my physician pronounced consumption," writes Dr. Herring, of Needmore, Levee Co., Florida. "My trouble continued for several months. Four bottles of Dr. Pierce's Golden Medical Discovery cured me."

We'll Never Go Back to Detroit.

Detroit, June 2.—Charles H. Smith has returned to this country. On May 14, 1890, Smith, then a prominent business man of Detroit, mysteriously disappeared. His estate was probated June 19, 1890, and he was declared legally dead. He is alive at New York. Financial reverses drove him away from here and he says he will never come back to Detroit. HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effect following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists; price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention The Times and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

Reports from several states indicate that the Detroit Republican League convention will be the most successful in the history of the league.

Hughes, the chief of the bridge department of the sanitary district, has started his draughtsmen at work upon the plans of the mammoth structure. Beware of Mercury!

Mr. Henry Roth, of 1848 South 9th Street, St. Louis, was given the usual mercurial treatment for contagious blood poison. He was twice pronounced cured, but the disease returned each time, he was seized with rheumatic pains, and red lumps and sores covered his body.

"I was in a horrible fix," he says, "and the more treatment I received, the worse I seemed to get. A New York specialist said he could cure me, but his treatment did me no good whatever. I was stiff and full of pains, my left arm was useless so that I was unable to do even the lightest work. This was my condition when I began to take S. S. S., and a few bottles convinced me that I was being benefited. I continued the medicine, and one dozen bottles cured me, and I am now well. My system was under the effects of mercury, and I would soon have been a complete wreck but for S. S. S."

S. S. S., (guaranteed purely vegetable) is the only cure for real blood
